About the OPIS Bottom Line Report:

Each day, OPIS uncovers wholesale fuel purchases transacted at values below the OPIS posted prices that appear in our Daily Wholesale Rack reports. We verify these transactions and publish these "Bottom Line" values in each market to give buyers and sellers visibility into the lowest transacted wholesale purchase prices on any given day. "Bottom Line" prices are then contrasted against the OPIS Benchmark Low posted price as a gauge to identify how much lower these "Bottom Line" prices are. "Bottom Line" prices include TVAs and other discounts and are often contract prices between suppliers and purchasers reflecting volume discounts, although specific volumes are not reported.

OPIS Bottom Line Report Methodology:

- At approximately 10:00 am Eastern and is based on OPIS Contract Terminal Low
- At approximately 6:00 pm Eastern and is based on OPIS Closing Terminal Low
